Building bridges to society

Roeterseiland Campus Impact

Building bridges to society

The University of Amsterdam Roeterseiland, located in the heart of Amsterdam, brings together education, research, practice and society. We link businesses, non-profits, NGOs, local governments, and institutions with researchers, students, teachers, and innovators. This fusion creates a hub for innovation to flourish.

3 faculties

- Society & Behaviour
- Amsterdam Law School
- Economics & Business

4 societal themes

- Responsible digital transformations
- Resilient and fair society
- A healthy future
- Sustainable prosperity

What do we offer?

Impact centres

In our impact centres, experts, teachers, researchers and students work hand in hand with industry partners, governmental organisations, NGOs and SMEs to generate new knowledge and cutting-edge innovations. These centres are genuine laboratories of collaboration and sharing.

Law Hub | Analytics for a better world | Social and Behavioural Data Science

Collaborative education

Many courses offer the opportunity to work on real-life case studies.
Provide a case for teams to work on, and benefit from our students' expertise.

Computional Social Sciences | Amsterdam Living Case Lab

Start-up creation and development

Find out about funding and support for start-up creation and development on campus. Become a contributor, mentor, collaborator, or partner.

Minor Entrepreneurship | ACE Incubator

A full list of our impact initiatives can be found at www.recimpact.nl
